

ICAP – Haiti

Call for Expressions of Interest

Engineer Firms

ICAP at Columbia University’s Mailman School of Public Health has received funding from the United States Government’s Centers for Disease Control and Prevention (CDC) to implement the Targeted Programmatic Support Award (PSA) across Haiti to achieve epidemic control of HIV and TB in four selected regions in Haiti (North, Artibonite, West and South) during this performance period. ICAP’s proposed activities focus on facility-and community-based interventions to strengthen targeted HIV testing, including partner and index case-based testing; retention in care; same-day antiretroviral therapy (ART) and viral load (VL) suppression among people living with HIV (PLHIV).

ICAP is seeking to hire an Engineering Firm services to submit competitive bids for the retrofitting of five (5) health facilities in four departments of Haiti:

1. North: OFATMA - Cap-Haitien
2. West: OFATMA - Cite Militaire and OFATMA SONAPI
3. West: Gressier - Centre Hospitalier de Gressier
4. South: OFATMA des Cayes

Services should include capacities to execute refurbishments previously assessed in specific rooms at the specific hospitals/health centers (see provided list) in the following jobs:

The work will consist in:

- 1) Conducting sites visits to prepare invoices for the selected hospitals;
- 2) Executing refurbishments in clinics, labs, secured storage and patients waiting rooms, which will serve as spaces dedicated to store supplies and medications, to provide confidential counseling and testing services, to install servers and electronic equipment, and to set up 24/7 energy and water systems in 5 clinics in 3 departments: West, North, and South, within the framework of the implementation of the PSA project.

Mainly:

- The refurbishments of the available space at each facility to ensure there are rooms that meet the requirements for patients seeking care, especially in terms of confidentiality. Furthermore, ensure that part of the space can accommodate computer servers (dry and ventilated place), among others.
- Perform the repairs necessary for plumbing systems (installation of hand washing stations, plumbing repairs and water supplies in restroom in clinics).
- Perform the repairs for electrical systems, energy backup system capable of supplying power 24/24 (Installation of inverters and batteries, cabling for generator system installation, installation of light bulbs and other electrical repairs as needed).
- Perform repair of the existing storage spaces for commodities (temperature control room, segmentation of rooms, treatment of molds and humidity).
- Perform the repairs of facilities security system (changing of door locks, adding fire extinguishers, adding extra iron security doors)

Quotations should be submitted on or before, **August 7, 2020** through email to: icap-ht-info@cumc.columbia.edu

It shall remain your responsibility to ensure that your expression of interest will reach the address above on or before the deadline. Expression of interest that are received by ICAP in Haiti after the deadline indicated above, for whatever reason, shall not be considered for evaluation.

ICAP reserves the right to confirm the information given by applicants in order to validate the information and make informed decisions.

ICAP reserves the right to accept or reject any application based on the evaluation criteria provided below.
